

Nutrena[®]
What's inside counts.

ProForce[®] Fuel

Product Purpose: ProForce[®] Fuel is a highly versatile, controlled starch feed. Fuel is a unique combination of pellets and the Empower[®] Boost extruded nugget for horses in training and for adult maintenance and breeding horses.

Product Features:

-  Versatile, high calorie feed ideal for wide range of horses
-  Guaranteed amino acid levels to support muscle development and maintenance
-  Balanced Omega 3 and 6 fatty acids help reduce the effects of inflammation
-  Added prebiotics and probiotics to aid in nutrient digestion and digestive health
-  Organic trace minerals for improved immune support, increased bioavailability and improved skin, hair and hoof quality
-  Includes **Topline Balance**[™], Nutrena's unique approach to topline health

Feeding Directions:

Activity Level		LB Feed Per 100lb Bodyweight
Maintenance	Maintenance	0.25 – 0.50
Performance	Light exercise	0.5 – 0.75
Performance	Moderate exercise	0.75 – 1.0
Performance	Intense exercise	1.0 – 1.5
Broodmares & Foals	1 st 2 trimesters of gestation	0.25 - 0.50
Broodmares & Foals	Last trimester of gestation	0.50 - 0.75
Broodmares & Foals	Early lactation (foaling – 3 mths)	1.0 – 1.5
Broodmares & Foals	Late lactation (3 months – weaning)	0.5 – 1.0
Stallions	Non breeding	0.25 – 0.5
Stallions	Breeding	0.5 – 1.0

The following feeding directions are guidelines to maintain desired body condition and performance. Feeding rates need to be adjusted according to the horse's body condition and activity level. Divide the recommended daily feeding rate into 2 or more meals per day and feed with good quality hay or pasture equivalent at the rate of 1.0-1.75 LB per 100 LB bodyweight or kg per 100 kg bodyweight to provide a minimum of 50% of the diet from forage. Performance horses may benefit from being fed more frequently. Clean water should be available at all times. Horses that have been exercised should be cooled out and re-hydrated properly before being fed and before having access to unlimited water.

CAUTION: Store feed in a clean, cool and dry location. Storage area should be free of insects and rodents. Do not allow animals access to feedstuffs that show signs of insect or rodent infestation. Do not allow animals access to hot or moldy feedstuffs at any time.

Product Information:

- Product code 94200 – 50 lb. Pellet & Extruded Nugget Based Feed
- UPC 7-22304-38754-9
